

# Crèche Commissioning

Ealing's Early Years, Childcare and SAFE Service works with a variety of statutory, voluntary and community organisations in order to offer a holistic approach to service delivery for Ealing's young children and their families.

The aim of this service is to improve outcomes for all children and, in particular, to bridge the gap between outcomes for the most disadvantaged children and others and to do this within the context of a commitment to early intervention which aims:

*'To give social and emotional bedrock to the current and future generations of babies, children and young people by helping them and their parents (or other main care-givers) before problems arise'*

Ealing's Children's Centres provide support for all young children and their families and parents-to-be through the delivery of a core offer of universal services, targeted services and access to specialist services. In order to deliver some of these services it has been identified that there is a need to provide crèche provision linked to courses or support groups

## Areas for Priority

### Training Courses:

- Family Links
- Triple P (Positive Parenting Programme)
- Webster Stratton (Incredible Years)
- Strengthening Families, Strengthening Communities
- Mellow Babies
- Mellow Parenting
- ESOL (English as a second or other language)
